17. Enforcement Agency (EA) Conditions:

- a. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in Title 27, California Code of Regulations.
- b. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, fires, explosions, the discharge and disposition of hazardous or unpermitted wastes, and significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The log shall be available to site personnel and the EA at all times.
- c. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the EA.
- d. The maximum permitted daily tonnage for this facility is 450 tons per day and shall not receive more than this amount without a revision of this permit.
- e. This permit is subject to review by the EA and may be temporarily suspended or revoked at any time by the EA for sufficient cause, in accordance with Division 30 of the Public Resource Code, Part 4, Chapter 4, Article 2, Section 44305.
- f. The EA reserves the right to suspend or modify waste receiving and handling operations when deemed necessary due to an emergency, a potential health hazard, or the creation of a public nuisance.
- g. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of an RFI amendment, to the EA at least 180 days in advance of the change.
- h. A copy of this permit shall be maintained at the facility.
- i. This facility is permitted to accept the following wastes: agricultural, construction and demolition, dead animals, inert, mixed/municipal solid waste, triple rinsed and punctured empty pesticide containers, incidental tires commingled with refuse load and contaminated soils.
- j. A copy of the current Joint Technical Document shall be maintained at the site.
- k. To comply with Title 27, Section 20590 (Personal Health and Safety), the operator shall maintain onsite a copy of the Injury Illness and Protection Program (IIPP) for review by local and state inspectors.
- l. Adequate artificial lighting must be provided when natural lighting is insufficient to safely conduct landfill operations.
- m. The site shall maintain a formal hazardous waste monitoring program that is approved by this agency. The operator shall provide an employee training program to address the recognition and proper response to hazardous material incidents.
- n. The operator is prohibited from acceptance of any material after proposed grade is met.
- o. This facility may accept the following for recycling: scrap metals, appliances, E-waste, universal waste and tires as approved by the EA.
